1. SumTotal Foundation Standards Site

General information and rules are available on Team Foundation our central repository for SumTotal engineering standards.

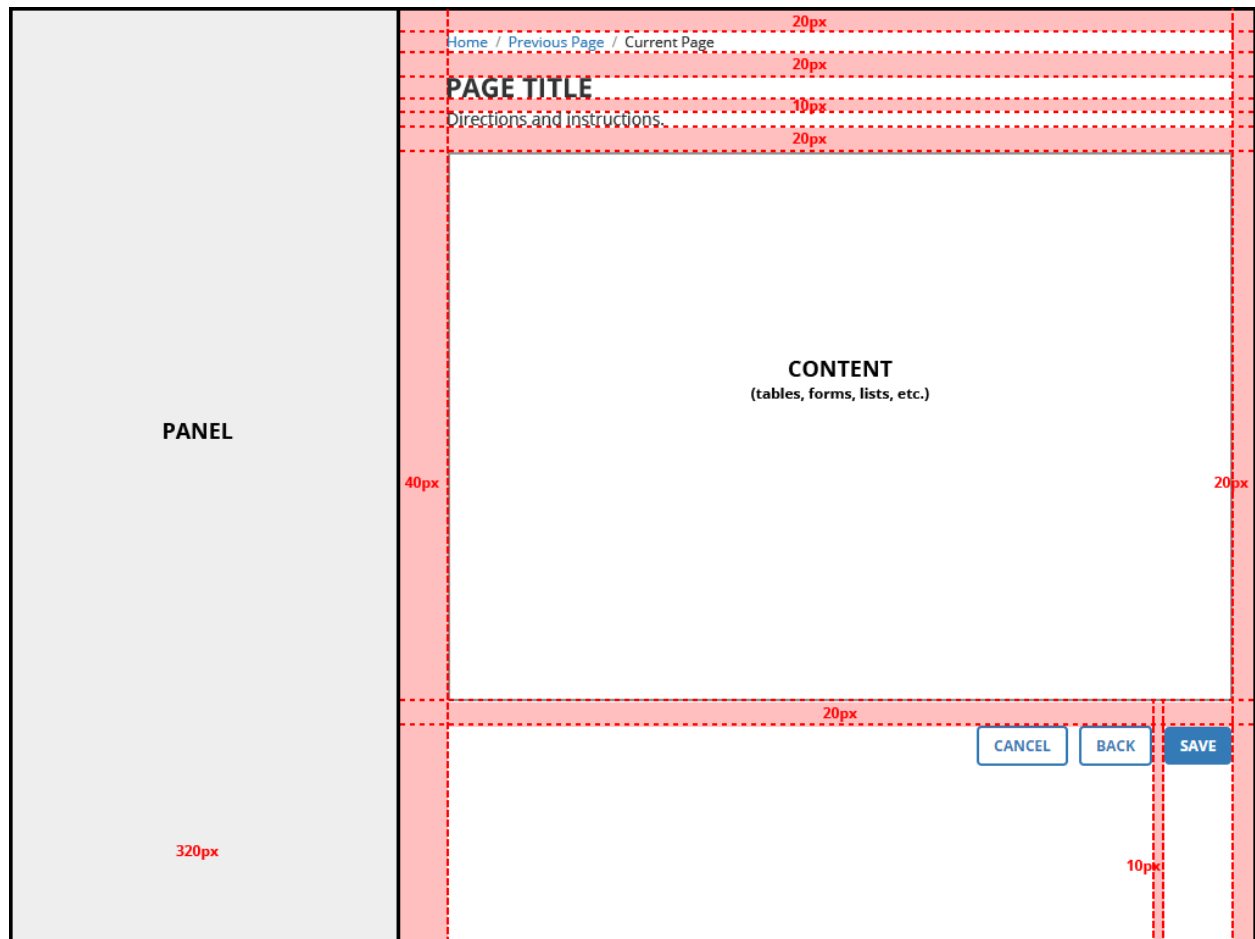

team.sumtotalsystems.com

2. Page Layout

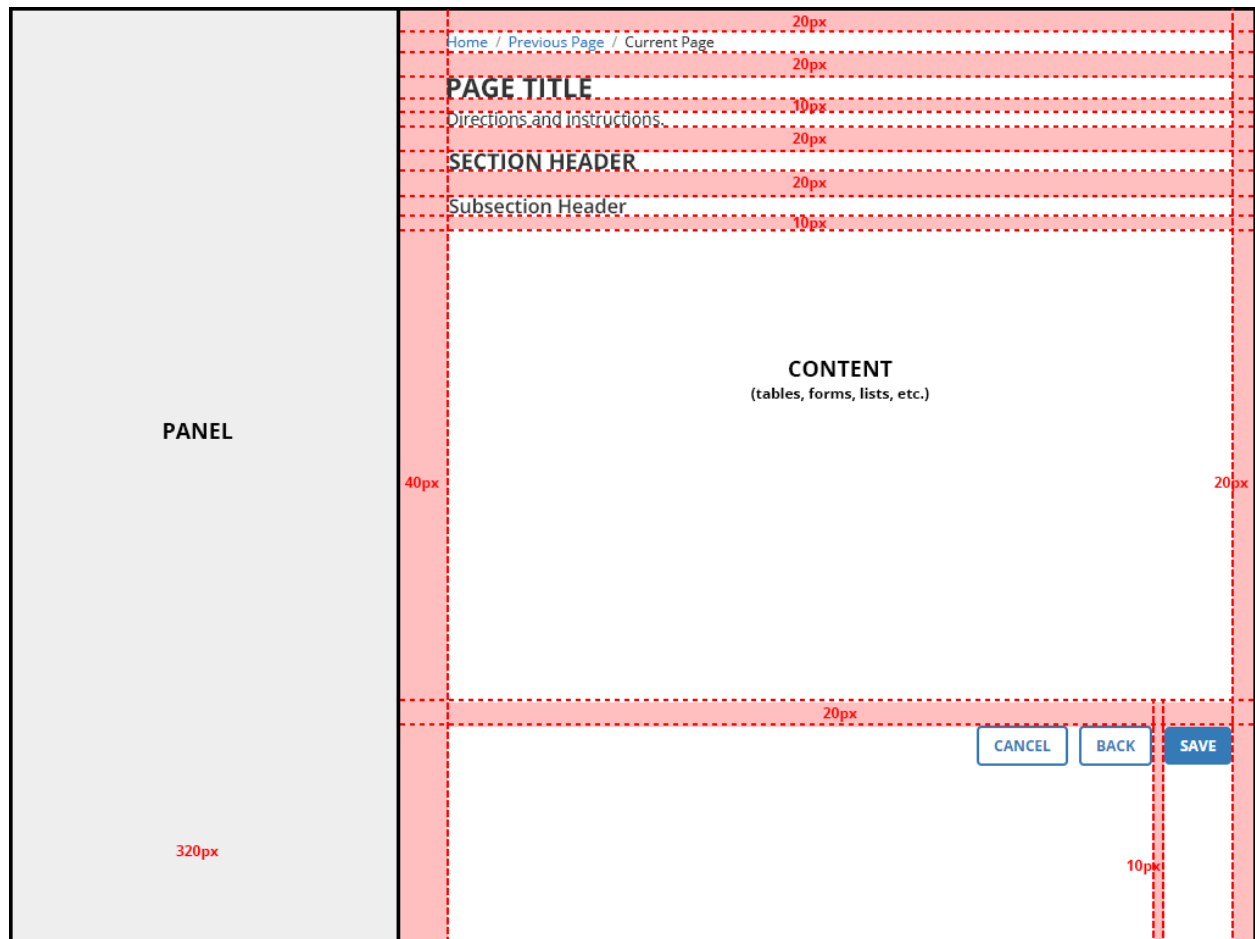

Standard layout of a screen that has a left side panel. Buttons should be right aligned to the bottom of the content. The primary button, such as a save button should be the furthest to the right. Any type of stop or cancel button should be the first button to the left.

6. Tables

The column alignment in headers should be left aligned as the standard and top aligned vertically. The only instance that a column should be right aligned is when the column is displaying a number count, such as price.
